We're Back....

James and Brodey have returned from a nine day camp at Somers. Their thoughts about the camp are on the next page.

Somers Camp

Somers By James

On the 1st of August we got on the bus at Torrumbarry, it was 7.30am. We stopped at Heathcote for a bathroom stop. It took six hours to get to Somerville. When we got there we had lunch which was a roll with ham and cheese and a juice box.

There was a massive rock in the middle of the basketball court, it was really cool, it was kind of hard to climb up. I was in Group 7 and I slept in Hut 8. Tony was our but teacher and Stephanie was our group leader. Stephanie was from Lockington.

We did lots of activities such as environmental studies, BMX riding (I fell off because I hit a tree), high ropes course, low ropes course, flying fox, boating, rock climbing the giant swing, bush cooking and archery. We also did library, art, drama, group activities as well as some optional activities.

My favourite thing was the high ropes course, it was my favourite because it was challenging.

Somers Camp By Brodey

Last Tuesday I went to Somers, it was a nine day camp. It was the best.

My favourite activity was the big swing, I went to the top. The thing I did not like was Environmental Studies, it was boring.

On Sunday, Mum, Nan, Zack and Zack's girlfriend came to visit. We went to the beach and that was fun.

One night we had a bush dance and girls had to dance with a boy, I did not like it.

Farm Safety Day

Yesterday we attended Farm Safety Day at Rochester. Many district schools were in attendance. Our students took part in interactive displays and presentations around safety on the farm, around the home and other environments. This activity tied in well with our STEM week activities.

Today we were visited by Mr Rob Krobar from Coliban Water, he talked about floods and how they affect the environment. Other activities that we have planned for STEM week are using solar kits to make moving apparatus and making a Welton memories book using their ICT skills.

Athletic Sports

We have been training hard for next Tuesday's sports. We will be competing against students from Leitchville, Gunbower and Koondrook. Please ensure students are at Cohuna No. 2 oval by 9.45am and dressed in sports uniform. A reminder that there is no food at the venue so you will need to bring your own snacks, drinks and lunch. This will be our last event with the Murray Plains Cluster Schools, so we hope to make it a memorable one.

Playgroup

This Friday will be the last playgroup session held at the school. It is necessary to finish these sessions at the school before the end of term in order to give staff time to do a stocktake and pack up the room. At this week's meeting we can discuss arrangements for future meetings at an alternative venue. We hope to see as many members there as possible. A reminder that playgroup runs from 10am until 12pm at the school.

Masterchef @ Welton

Last week Kayden and Jayden got busy making their own lunch- yes, Welton students need to fend for themselves. They chose to make lasagne and as you can see from the pictures they enjoyed the process. They did a fantastic job and served their fare with garlic bread; it was washed down with a glass of lemonade and some ice-cream.

Welton Flashbacks

Here are some more Welton memories from fun days gone by....

BOX CAR GRANDE PRIX 2011

VISIT BY THE LATE LYNNE KOSKY, THE VICTORIAN MINISTER FOR EDUCATION, 2003

SCHOOL CONCERT 2002

TEDDY BEAR'S PICNIC 2007
